### SARASWATI INSTITUTE OF LAW, PALWAL

The establishment of Law College was the dream of our founding father Late Sh. Lakhan Pal Mangla (Sr. Advocate) to make students legally vibrant. The vision and commitment came true in 2017 with the remarkable efforts of Hon'ble Chairman Sh. Atul Mangla, Additional Advocate General, Haryana.

The foundation stone of SIL was laid down by Bhramrishi Sh. Guru Gurvanand Swami Ji in the gracious presence of Hon'ble Mrs. Justice Daya Chaudhary, Punjab & Haryana High Court, and Hon'ble Mr. Justice N.K. Sanghi, Punjab & Haryana High Court on dated 8<sup>th</sup> Feb, 2014.

In the golden words of **Hon'ble Mr. Justice A.K. Sikri, Judge, Supreme Court of India, New Delhi,**

“The illiterate of the 21<sup>st</sup> century will not be those who cannot read & write, but those who cannot learn, unlearn, and relearn”.

During his convocation address at Saraswati Mahila Mahavidyalaya, Palwal on dated 14<sup>th</sup> April, 2015, he wished for a Law College in Palwal. He encouraged and appreciated our efforts towards nation-building via imparting legal education and ethics.

Saraswati Institute of Law has been working under the aegis of Saraswati Shishu Mandir Prabhand Samiti since 2017. We have 3 schools and a women's degree post-graduate college i.e Saraswati Mahila Mahavidyalaya wherein around 3000 girl students are getting education in Science, Arts, Commerce, Computer. We also have several other Courses such as B.voc (IT) & Marketing Management at PG and UG level with M.A ( English & Pol. Science), M.sc ( Physics), M. Vocational & M.Com.

It has 7, 43,534 K.M<sup>2</sup> of forest land, 350 species of mammals, 375 reptiles, 130 amphibians, 20,000 insects, 19000 fish & 1200 species of birds.

State of Malinga is one of the States in the Union of Loads. Malinga being at the heart of the country and situated on the bank of the river Trisa, Blended hub of education, economically prosperous and have plenty of job opportunities to its residents. It has 3 Centre Universities and 20 private Universities.

# **Late Sh. Lakhan Pal Mangla Memorial**

## **2<sup>nd</sup> National Moot Court Competition (Hybrid)**

But City's detritus has kept on arriving each day in hundreds of trucks. Malinga's tallest rubbish mountain in Galiyarpur is becoming a danger day by day. Animals are like Vultures, stray dogs and monkeys are also became a regular cause of incidents of dog bites and monkey bites for the local poor residents.

Taking up the area of more than 40 football pitches, Galiyarpur rises by nearly 10 metres a year with no end in sight to its foul smell. Around 2000 tonnes of garbage is dumped at Galiyarpur each day. Residents of Galiyarpur are facing severe respiratory problem, skin infection with burning eyes. This dump of waste is never being checked or inspected by the pollution control board and as per the newspaper reports people are detected with cancer and tumor in recent years due to dumping of substance which might be of Radioactive in nature. This dump fumes are also becoming the cause for birth deformities in infants. People filed many regular complaints to Municipal Corporation of Malinga and State Pollution Control Board of Malinga but no action was taken.

In 2018, A survey was conducted by an NGO for detecting the effect of landfill on the groundwater of Galiyarpur area and on the water of Trisa. It has been found that groundwater is heavily contaminated due to this landfill which caused the major incident of spread of cholera and typhoid in the area of Galiyarpur in which 80 children were lost their lives and 20 adults were died. But the waste mount is still untouched and no action was taken by the authorities to clean the place. The condition of river Trisa is also deteriorated because of the Kala Nala which is coming from the Galiyarpur area just nearby to this landfill and connected to the river which has degraded the Aquatic life of the river and also affecting the commercial activities depend on the river products. This Galiyarpur was one of major producer of vegetable and grain in Asia but due to increase of water pollution in trisa river the agriculture of the region is also get affected. People are facing major problem due this.

The landfill has attained a height of 65meter height with daily dumping of 2500-3000 ton garbage. Landfill has covered 29 hectare area of Galiyarpur. 3845.20gg methane releases every year. Inhabitants of Galiyarpur are poor rag pickers, beggars, house hold servants and daily wage earners. Poor children play over & around landfills, as there is no segregation in their slum and landfills. The ground water is effected badly with these landfills. Inhabitants have to resort to Municipal Corporation for potable water van, which visits either once a day or sometimes once in 2 to 3 days. It is persistent to mention that Galiyarpur being part of NCR, attached with NCR and portraying miserable condition of residents. Secretions of landfills are polluting Trisa River & Sanjay Lake too.

Inspite of waste management authority and Pollution Control Board, these vulnerable people are compelled to live in garbage at the cost of their life & health. Ruling Party and Centre Government blames each other but the sufferers are residents only.
